We are looking forward to another year of serving the UKPTA and its members, and trust that more and more 'knowing' of Polarity will begin to emerge into the main narrative, thus giving Dr. Stone's work a more engaging voice. Our aim is to further the stability of the message and revealing the depth and wealth of knowledge within Polarity Therapy Worldwide.

If there are any RPP's who would like to discuss training options, or offering their unique modules within Polarity community please let us know or call any of the Counsel members to discuss.

An Introduction

Hello,

My reasoning for wishing to take the chair of the UKPTA, is that, following 20 years of being a member, giving my enthusiasm, and still willing to give, to the energy work that Dr Stone compiled, expressed and taught, now 70+ years ago, I love the energy medicine bodywork. This is a time when, this modality and many similar ones, are being valued for their contribution to the endeavour of humanity to make a transition of epic proportions, this is happening at a pace, and many are engaging with the support that energy bodywork can offer them. The UKPTA does have a place, as an Association of Health Practitioners, and in giving a voice to those Practitioners.

We have landed in a very interesting time, the heart takes the lead in the general narrative, but something more needs to blossom. This narrative would be in alignment to the 'sense' or 'feeling' of what is our 'common denominator', which I feel is, the actual Polarity work itself. If we, as the UKPTA counsel, can collectively 'encourage' the membership, or perhaps I need to say, the energy of the membership, to express more of the essence of what they feel are 'the gems' of the work with short articles, and testimonials, these may be anonymous. My hope from this, is that we all can expand the foundation stone together, and the confidence of 'Polarity' itself would progress, and the triad of, clients, Practitioners and Trainers, would ultimately benefit. The narrative will give way to 'feeling'. Lyn and I have recognised this subtle shift, and began to work with it some years ago.
